California schools currently operate under a "Last in, First Out" policy, meaning layoffs are dictated by seniority and the most recently hired teachers are always laid off first. Please read the following two statements and indicate which one California Public school teachers who receive a positive recommendation from supervisors are currently awarded "tenure" after 18 months in the classroom. Teachers without tenure can be terminated for any reason. Tenured teachers can only be terminated for cause. Have you recently heard or read about a court case (Vergara vs California) in which a judge addressed the constitutionality of the state's teacher tenure system?	Sample Size	1005	123	200	208	254	126	94	213	269	244	279

California schools currently operate under a "Last in, First Out" policy, meaning layoffs are dictated by seniority and the most recently hired teachers are always laid off first. Please read the following two statements and indicate which one California Public school teachers who receive a positive recommendation from supervisors are currently awarded "tenure" after 18 months in the classroom. Teachers without tenure can be terminated for any reason. Tenured teachers can only be terminated for cause. Have you recently heard or read about a court case (Vergara vs California) in which a judge addressed the constitutionality of the state's teacher tenure system?
